

Step 1: Choose your interests, skills, and personality from the dropdown menu

Major Advisor

Step 1 ↩

Select your interests

Choose options ▼

Step 2

Select your skills

Choose options ▼

Step 3

Select your personalities

Choose options ▼

Step 2: Rank your selected skills and interests from 1 to 5

Rate your interest in coding

Rate your interest in chemistry

Rate your interest in business

1 5

Rate your interest in computer

Rate your interest in ai

Rate your interest in design

Rate your interest in analytics

Skill/Interest	Rank
coding	3
chemistry	3
business	3
computer	3
ai	3
design	3
analytics	3

Step 3: Choose your minimum desired salary using the slider

Step 4 ⇌

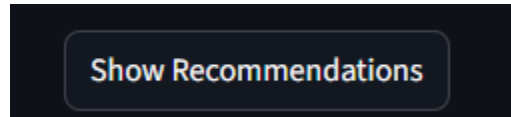

Minimum desired salary

100000

Minimum desired salary
100000

Step 4: Press “Show Recommendations”

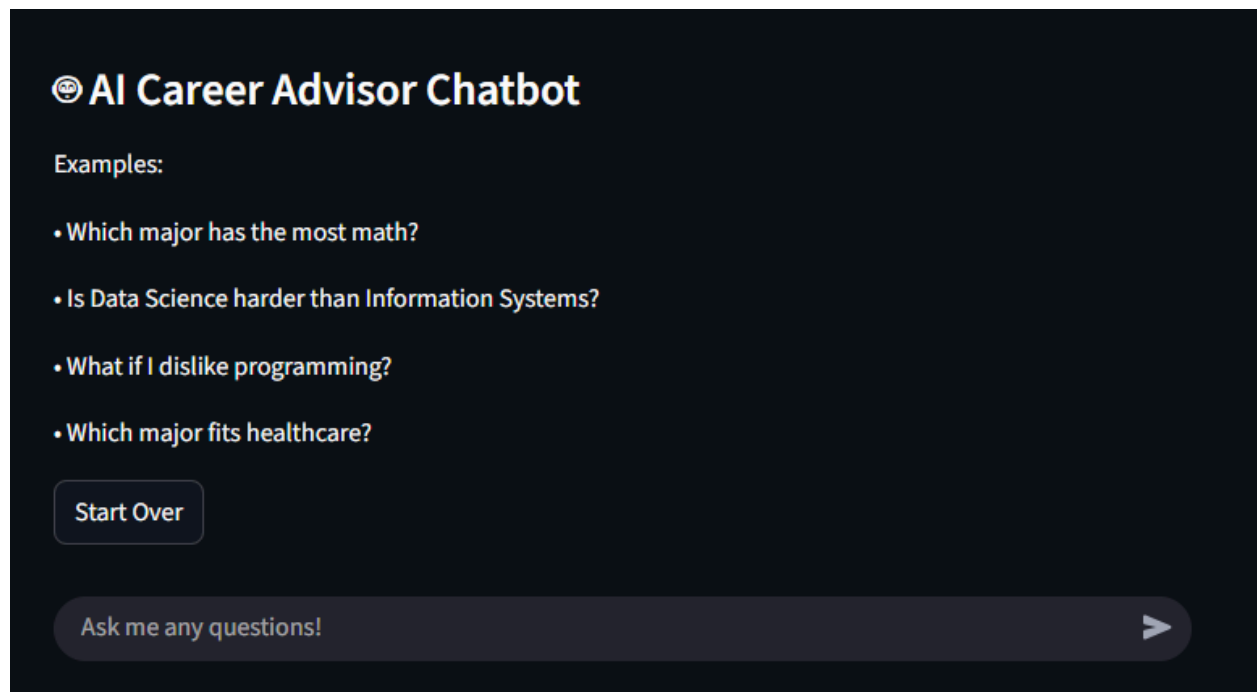

The button will light up when you have selected interests, skills, and personality

Once pressed, give the program a few minutes to run and generate your recommendations.

Step 5: If you have any more inquiries, you can ask the Chatbot, or you can start over by pressing “Start Over”

Do keep in mind that, when you ask the question to the chatbot, the whole program will run again due to how Streamlit works. Also, unfortunately, the “Start Over” button can’t be put under the chatbox, Streamlit doesn’t allow you to put anything below the chatbox.
